

INDIA-RUBBER TUBE COCK AND WATER-CLOSET, SHOP SHUTTER BHOE AND FASTENER, JOINT, &c

presented before the Hon. the Hon. noticed in that rural publication, THE BRIDGE, an article praising the simplicity and efficiency of your Patent Water Closet. I with much pleasure heartily concur in the simplicity and efficiency of your Patent Cocks, and should have sent to you before, but the Cocks being much exposed, I was anxious to see if they were affected by frost, and the result has been satisfactory. We are all happy to make any man that is anxious to improve his water closet, being in good luck. I am, Sir, yours obediently,
W. LONGMERE

From the Rev. J. D. Facey, B.D., Minister of St. Paul's, Winchester Hall

Dear Sir.—After one winter's experience of your move in St. Paul's chapel, I feel so benefited in making that it may fairly claim a place in the first rank among the invitations for warm churches. Before adopting your stove, I made extensive inquiries, both as to the different kinds of stoves to use, and as to the water system. I was acquainted with one kind or other I found practically experienced under the various systems which I witnessed; but I really have not a single objection to allege against your stove. I believe it to be more powerful than any other move of the same dimensions and expense; and is to my more agreeable in a church than any other with which I am acquainted.—Yours truly, J. L. H. BART.

From the Rev. Dr. VIVIAN, Minister of St. Paul's, and Rector of St. Peter-in-Poor.

an equal degree of warmth over the whole of a large building, and in promoting ventilation, I consider them unsurpassed. They are also the most economical I have ever met with. My church, which was unfortunately one of the coldest in the metropolis, has, since the introduction of your machine of the largest size, about twelve months ago, become perfectly warm and comfortable.

J. W. VIVIAN, D.D.

THE STOVE MAY BE SEEN IN OPERATION AT THE MANUFACTORY, AT KING'S COLLEGE (WHERE SEVERAL HAVE BEEN FIXED), AND AT

SYLVESTER'S GRATES.—These Grates do not require either description or recommendation. Their unequalled comfort and economy in fuel have been testified to by members of the Society in the Kingdom.

The improvements recently patented do away with the necessity of having a fire in every grate of necessity, from the furnace to the kitchen, and in the situation of this year, save to the most insignificant room.

They are made by the Manufacturers through the Kingdom, and are sold by the Ironmongers.
